

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Previously Amended) A process for providing event photographs of a sporting event for inspection, selection and distribution via a computer network, comprising the steps of:

taking photographs of substantially the entire body of at least one participant of a sporting event along at least one point of a course or field thereof;

associating identifying data with each photograph taken, wherein the identifying data is selected from at least one of: a number corresponding to a number worn by a participant, a participant's name, a code acquired from a component worn by a participant, and a date and time, including hour and minute the photograph was taken;

informing the sporting participants of the identifying data;

transferring the photographs to a computer network server;

cataloging each of the photographs in a web-site server according to the identifying data;

accessing the server at a location other than the sporting event and searching for a photograph of a particular sporting event participant utilizing the identifying data; and

displaying the photograph of the sporting event participant for inspection and ordering.

2. (Canceled)

3. (Previously Amended) The process of claim 1, including the step of posting the identifying data associated with each photograph so that it is made available to the participants of the event for later use in searching the server.

4. (Canceled)

5. (Canceled)

6. (Previously Amended) The process of claim 1, wherein when the identifying data comprises a code acquired from a component worn by the sporting event participant, including the step of triggering a camera to take a photograph when the component passes a predetermined point.

7. (Original) The process of claim 6, wherein the predetermined point includes a sensor which interfaces with the component.

8. (Previously Amended) The process of claim 6, wherein the component comprises a passive component.

9. (Original) The process of claim 8, wherein the component includes a bar code.

10. (Original) The process of claim 8, wherein the component includes an inductive circuit.

11. (Previously Amended) The process of claim 6, wherein the component comprises an active component.

12. (Original) The process of claim 11, wherein the active component includes an electronic device having a transmitter.

13. (Canceled)

14. (Currently Amended) The process of claim 1, wherein when the date and time is selected as the identifying data, an approximate time ~~can be~~ is used to search for a particular photograph.

15. (Original) The process of claim 14, wherein the approximate time is calculated using the following formula:

$$T_p = (L_p / L_c)(T_f);$$

wherein L_p equals the distance from a starting point of the event to the photographer;

wherein T_p equals the minutes from the starting point to a photographer at location L_p ;

wherein L_c equals the total distance of the event; and

wherein T_f equals the total minutes to finish the event by the participant.

16. (Canceled)

17. (Original) The process of claim 1, including the step of providing a digital camera electronically connected to the server for immediate download of photographs from the event to the server.

18. (Original) The process of claim 1, including the steps of ordering a photograph of the event using the server and fulfilling the order by sending the photograph.

19. (Original) The process of claim 18, including the step of mailing the photograph utilizing information provided by the person ordering the photograph.

20. (Original) The process of claim 18, including the step of electronically transferring the photograph to the person ordering the photograph.

21-50 (Canceled)

51. (Previously Amended) A process providing sporting event photographs of competitors for inspection, selection and distribution via a computer network, comprising the steps of:

taking photographs of substantially the entire body of one or more competitors of a sporting event along at least one point of a course or field thereof;

associating identifying data with each photograph taken, wherein the identifying data comprises the date and time when the photograph was taken during the sporting event;

informing the sporting event competitors of the identifying data;

transferring the photographs to a computer network server;

cataloging each of the photographs in a web-site server according to the identifying data;

accessing the server at a location other than at the sporting event and searching for a photograph of a particular competitor after the sporting event utilizing the date and time the photograph was taken; and

displaying the photograph of the particular competitor for inspection and ordering.

52. (Previously Amended) The process of claim 51, including the step of posting the identifying data associated with each photograph so that it is made available to the sporting event competitors of the event for later use in searching the server.

53. (Currently Presented) The process of claim 51, wherein an approximate time ~~can be~~ is used to search for a particular photograph.

54. (Previously Amended) The process of claim 53, wherein the approximate time is calculated using the following formula:

$$T_p = (L_p / L_c)(T_f);$$

wherein L_p equals the distance from a starting point of the event to the photographer;

wherein T_p equals the minutes from the starting point to a photographer at location L_p ;

wherein L_c equals the total distance of the event; and

wherein Tf equals the total minutes to finish the event by the participant.

55. (Previously Presented) The process of claim 51, including the step of providing a digital camera electronically connected to the server for immediate download of photographs from the event to the server.

56. (Previously Presented) The process of claim 51, including the steps of ordering a photograph of the event using the server and fulfilling the order by sending the photograph.

57. (Previously Presented) The process of claim 56, including the step of mailing the photograph utilizing information provided by the person ordering the photograph.

58. (Previously Presented) The process of claim 56, including the step of electronically transferring the photograph to the person ordering the photograph.

59. (Previously Amended) A process for providing sporting event photographs of competitors for inspection, selection and distribution via a computer network, comprising the steps of:

taking photographs of substantially the entire body of one or more competitors of a sporting event along at least one point of a course or field thereof;

associating identifying data with each photograph taken, wherein the identifying data comprises a number worn by the sporting event competitor;

informing the event competitors of the identifying data;

transferring the photographs to a computer network server;

cataloging each of the photographs in a web-site server according to the identifying data;

accessing the server at a location other than the sporting event and searching for a photograph of a competitor of the sporting event utilizing the number worn by the sporting event competitor; and displaying the photograph of the competitor for inspection and ordering.

60. (Previously Presented) The process of claim 59, including the step of providing a digital camera electronically connected to the server for immediate download of photographs from the event to the server.

61. (Previously Presented) The process of claim 59, including the steps of ordering a photograph of the event using the server and fulfilling the order by sending the photograph.

62. (Previously Presented) The process of claim 61, including the step of mailing the photograph utilizing information provided by the person ordering the photograph.

63. (Previously Presented) The process of claim 61, including the step of electronically transferring the photograph to the person ordering the photograph.

64. (Previously Amended) A process for providing sporting event photographs of competitors for inspection, selection and distribution via a computer network, comprising the steps of:

taking photographs of substantially the entire body of one or more competitors of a sporting event along at least one point of a course or field thereof;

associating identifying data with each photograph taken, wherein the identifying data comprises a code acquired from a component worn by the sporting event participant competitor;

informing the event competitors of the identifying data;

transferring the photographs to a computer network server;

cataloging the photographs in a web-site server according to the identifying data;

accessing the server at a location other than the sporting event and searching for a photograph of a particular competitor utilizing the code; and

displaying the photograph of the particular competitor for inspection and ordering.

65. (Previously Presented) The process of claim 64, including the step of triggering a camera to take a photograph when the component passes a predetermined point.

66. (Previously Presented) The process of claim 65, wherein the predetermined point includes a sensor which interfaces with the component.

67. (Previously Presented) The process of claim 64, wherein the component comprises a passive component.

68. (Previously Presented) The process of claim 67, wherein the component includes a bar code.

69. (Previously Presented) The process of claim 67, wherein the component includes an inductive circuit.

70. (Previously Presented) The process of claim 64, wherein the component comprises an active component.

71. (Previously Presented) The process of claim 70, wherein the active component includes an electronic device having a transmitter.

72. (Previously Presented) The process of claim 64, including the step of providing a digital camera electronically connected to the server for immediate download of photographs from the event to the server.

73. (Previously Presented) The process of claim 64, including the steps of ordering a photograph of the event using the server and fulfilling the order by sending the photograph.

74. (Previously Presented) The process of claim 73, including the step of mailing the photograph utilizing information provided by the person ordering the photograph.

75. (Previously pPresented) The process of claim 73, including the step of electronically transferring the photograph to the person ordering the photograph.
